

DETAILED ACTION

Reason For Allowance

1. Claims 1-6 and 8-21 are allowed.
2. Following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 10 and 21, which include (claims 1, 10, 21) the lens array has at least one lens surface operable for directing light from one pixel aligned with the respective section into the one nominal viewing window and the directional display apparatus further comprises a deflection element arranged to deflect a portion of the light from one pixel aligned with the adjacent section passing through each respective section of the lens array by an amount which causes the one lens surface to direct the light from the one pixel aligned with the adjacent section into the same one nominal viewing window.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
